Career Objective

Aspiring Data Scientist with strong skills in Python, SQL, and Machine Learning. Passionate about analyzing data and building models to solve real-world problems. Currently pursuing MCA with hands-on experience in data science projects and eager to apply skills in a professional environment.

Education

MCA (Pursuing)	ASM IBMR, Savitribai Phule Pune University
B.Sc. Computer Science (2024)	GS College, Amravati University

Technical Skills

Programming: Python, SQL
Libraries: Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn, TensorFlow
Database: MySQL
Tools: Jupyter Notebook, Power BI, Excel
Concepts: Data Cleaning, EDA, Machine Learning, Statistics, Probability

Projects

• Restaurant Order Website – Built a web application using Python and SQL to manage restaurant menu, orders, and bills.
• Customer Churn Prediction – Developed a logistic regression model to predict customer churn for a telecom dataset.
• Stock Price Analysis – Performed time series analysis and visualization of stock market data using Python libraries.

Certifications

• Python for Data Science – Coursera
• Machine Learning Basics – Great Learning
• SQL for Data Analysis – DataCamp

Achievements

• Participated in Kaggle competitions for data analysis.
• Solved 200+ Python problems on HackerRank.
